LCR Embedded Systems is committed to always:

- Provide high quality products on time.
- Act in a professional and ethical manner.
- Treat our customers, suppliers and employees with respect and fairness.
- Provide our employees with the tools and environment for personal growth and continual improvement.

Scope of Management System

Design and manufacture of Integrated Systems, Metal Back Planes, Wire Wrap Assemblies, Connectors, and other Electronic Products, which may be used in products for Industrial, Aviation and Defense. There are no exclusions. All processes at the 9 S. Forrest Avenue, Jeffersonville, PA facility are included.

Interested Parties

Interested parties to LCR include company top management, employees and temporary workers, customers, end users of LCR products, external providers, regulatory bodies, U.S. military, financial supporters, LCR's AS9100D certification body, and federal, state and local governments.
